

PRO SERIES

SALT ELIMINATOR FLOOR CLEANER & NEUTRALIZER

Versatile floor cleaner eliminates alkalinity and salt film from both hard and soft surfaces. Can be used as a floor cleaner during the winter season to remove salt or ice melt residue. Safe for use in extractors and auto scrubbing equipment.

Directions

Test product in a small area to determine most effective dilution and to ensure compatibility.

1. Dilute with warm water as follows:
 - a. Light build-up..... 1:128
 - b. Regular build-up..... 1:64
 - c. Heavy build-up..... 1:32

Neutralizing Rinse

After stripping or to neutralize ice melting compounds, dilute product 1/2 ounce per gallon of water. Rinse floor thoroughly. Allow floor to dry completely before re-applying seal and finish.

Directions for General Cleaning

(Automatic scrubber and mop & bucket method)

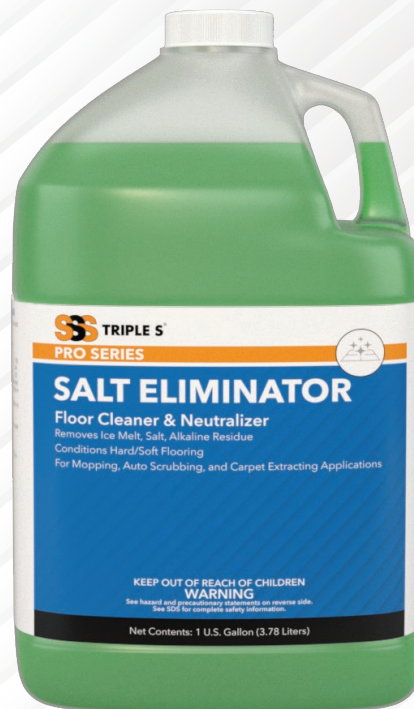

1. Fill solution tank with water and then add cleaner based on the soil condition of the floor.
2. Dilute 1:128 (1 oz. per gallon of water) in holding tank. Dilute 2 oz./gal for heavy build up.
3. Operate automatic scrubber on floor in traditional manner.
4. Empty holding tank and refill with clean water.
5. Repeat procedure with automatic scrubber.
6. Allow floor to dry thoroughly.

Features

- Quickly Removes Salt Residue
- VOC CARB Compliant
- Used as Post Stripper Rinse to Neutralize Floor Surfaces
- Ideal for Ice Melt Residue Removal

Recommended For

- Terrazzo
- Sealed Marble
- Slate
- Concrete
- Quarry Tile
